About Company

Customer is acclaimed as the fastest growing "True" Value-added Distributor across the Middle East, Turkey and Africa regions with on-the-ground presence in 20 countries including UK and the US. With its innovate Security Framework, Customer is also recognized as a "Trusted Cyber & Cloud Advisor" to over 3500 enterprise and government customers that use one or more of Customer's best- of-breed and market-leading technologies, sold through its Channel network of over 1500 Partners.

Business Challenges

- Integration between HSBC Bank Server & NetSuite platforms to manage Electronic Fund Transfer processes.
- Approve the Bills & Checks which has EFT option
- Create the ACH / PP / COC xml files
- Send the instruction file to the Bank server using public key authentication for Electronic Payment
- To Get the alert / Notification on successful / Fail Transaction.
- Functionality to re-initiate the failed transaction for Electronic Payment
- Change of transaction status on bill and Checks in NetSuite

BankEdge Solutions Offered:

- Inspirria's BankEdge Integrated third party application Oracle NetSuite with one separate Module called SFTP.
- Two way Authentication
- Used the public key authentication.
- Provided transaction alert / Notification to Account Manager via email
- Changed the status on Successful / Fail transactions and re initiate the failed transaction or Electronic Fund transfer for Bank

Benefits due to the Integration with BankEdge:

- Trigger Payments from Oracle NetSuite to get it processed by Bank without any dependency
- Real Time Payments processing
- Bulk Payment Process of the Bills and Checks will in bulk
- Avoiding the duplicate payment of Bill and Checks
- Bank Reconciliation to track the electronic fund transfer payment in a separate report
