About Brillio

- BRILLIO is global technology consulting firm focused on leveraging emerging technologies for innovation and application modernization in the Banking & Finance, Utilities, CPG, Retail, Technology, Media and Entertainment Industries. We partner with companies to identify new technology strategies to helping businesses transform in order to improve performance and competitiveness. Our hotspots around the world and investment in early technologies will help your business identify new capabilities faster, identify new opportunities quicker, and develop your vision for market dominance. Brillio helps you drive business innovation today. Let Brillio be your global co-innovation partner.

Business Challenges

- Brillio needed a more scalable solution with rapid deployment than the Microsoft Dynamics SL (Solomon) and Tally Solutions ERP systems used before Brillio spun off from Collabera.
- Company struggled with delays and inconsistent data with data scattered in multiple systems like Microsoft Dynamics SL used in the U.S., Tally Solutions in India and some part managed in excel sheets.
- Brillio wanted a scalable single system that can cater to current and future needs with customisation capabilities to model software to its business needs.
- Brillio wanted to have financial reporting by Project, Employee, Customer & individual practices

Solution offered

- Selected over Oracle EBS and Microsoft Dynamics, Oracle NetSuite offered a unified platform for end-to-end visibility across a diverse global business.
- Oracle NetSuite's modern cloud solution aligned well with Brillio's focus on IT innovation and modernization for its clients.
- Implementation by NetSuite Solution Provider Inspirria Cloudtech Pvt Ltd of India helped ensure a top caliber cloud SRP platform for business growth and reporting needs of Brillio

Benefits

- With 2,000 employees, Brillio streamlines end-to-end processes with Oracle NetSuite Services Resource Planning, based on Oracle NetSuite OneWorld ERP.
- Inspirria Cloudtech team ensured the best in class solution implemented at Brillio which helped them track resource allocation, costs and margins at each project level
- Inspirria Cloudtech team implemented key solutions to address the reporting requirements and cost allocations
- The solution implemented by Inspirria team helped Brillio to put controls on timesheet entries.
- Inspirria team helped Brillio to implement the efficient revenue recognition module
- Inspirria team implemented Oracle NetSuite OneWorld which gives Brillio automated global financial consolidation and real-time visibility into three subsidiaries in India and the U.S.
- Brillio efficiently processes multi-currency transactions in the Indian rupee, and U.S. dollar, with ability to bring other currencies on board as needed.
