

Case Study - Oracle NetSuite ERP Implementation with HR and Payroll Solution for Africa Market

Location:	Libya
Industry:	Pharmaceutical
Type:	Wholesale & Distribution
Products:	Pharmaceutical & Medical Equipment

About Company

The company is one of the largest Pharmaceutical Distribution Companies in Libya operating since 1993.

Business Challenges

- The company was looking for a Cloud ERP that can cater to current and future needs with a scalable solution for its Wholesale & Distribution business.
- The company had concerns over the inventory management to increase the shelf life of the medicines which required custom solutions considering the expiry date of medicines.
- The company wanted to generate automated letters of credit for Sales orders with ability to handle foreign currency transactions.

Solution offered

- Oracle NetSuite ERP Implementation offered a unified platform for end-to-end visibility across the business aligned with the company's focus on Inventory and Employee data.
- Provided First Expired First Out (FEFO) system for Inventory Management
- Provided HRMS Solution for real time visibility of employee data on NetSuite platform.

- Provided automation of Leave policy and Payroll function along with the Income tax localization requirements.
- Assisted in creating Letter of Credit with Currency conversion between Libya Dinar and US Dollars.

Benefits

- Scalable single solution with consistent inventory data for business operations.
- Real time visibility to employees on their availed leaves, balances and application status.
- Automated Employee Income Tax and other localization for Payroll and compliance with Government norms.
