Benefits	Improved Security and Increased Efficiency in Business Communication

About Company

- Since 1998 the Company has been importing fine quality food products from India and carving a niche for itself in the Japanese Market. It is Japan's premier online Indian grocery shop for Authentic Indian Spices, Grocery Products, Juices, Wine, Ready To Eat Curry and Herbal Products.
- The core ideology of the Company is to introduce Indian culture in Japan. Complying with its ideology, the company has a unique range of Authentic Indian food including Indian Spices, Wines, etc. Lately it has added a whole new range of Herbal Products incorporating the Ancient science of Ayurveda originating from India.

Business Challenges

- User required the ability to send email with a specific message and pre- defined message to selected sales team member.
- User required one mail to be sent after invoice creation and that mail should go to sales team members not to the customer.

Solutions Offered

- Provided automation of sending email to specific recipients (customers and internal sales team) once the invoice record is saved. This Email might also contain the PDF Printout of Invoice if required.

Benefits

- Reduced time spent on sending emails with the email automation
- Reduce the re-work of sending individual message to each Sales person
- Improved security achieved with email access to the specific person
